

CuZn Reticulated Foam

MODEL # Reticulated Foam 3" Disc

CuZn Water Systems 3" Reticulated Foam disc is a multiversatile solution to your Dechlorination, Descaling, Bacteria control challenge.

- Use in pressurized or unpressurized situations
- Open cell reticulated structure creates no pressure drop issues.
- Dechlorinates through catalytic action.
- 3" Disc will help prevent scale buildup and clean pre-existing scale from structure.
- 3" Disc will prevent Biofilm growth in recirculating sumps and on media or cartridges following the disc.
- The Reticulated Foam 3" disc is WQA tested and certified to NSF/ANSI standard 61.

Filter Foam Technologies dba CuZn Water Systems Inc.

PO Box 3874

Fayetteville, AR 72702

CuZn's Reticulated Foam 3" Disc can be used in many filtration situations. From recirculating sumps to cartridges, media tanks to shower filters, the 3" disc is the right fit for them all. The 3" Disc uses oxidation and an element residual to convert contaminants to nonharmful forms without removing beneficial components. Whatever your filtration needs, CuZn's Reticulated Media will fit. Contact your local CuZn representative for further information.
